#### THE DIFFERENCE.

Representative Livingston (Ga.), ranking Democrat of the Appropriations Committee, submitted a statement the closing hours of Congress showing, with the inclusion of the isthmian canal, river and harbors and other prospective expenditures, appropriations of over a billion dollars during the past session. His statement was in part as follows:

The direct appropriations made at this session of Congress, including the will be played to-morrow with the Red is \$28,050,057.27, a gain of \$2,299,030.81; isthmian canal appropriation, reach the Men, and a good game is promised. the net \$8,964,842.02, a decrease of \$186,astounding aggregate of \$800,193,837. The appropriations, including authorized contracts of this session, exceed those, including contracts, of the last Hi session by \$270,798,102. The last session Meu. of the Fifty-third Congress, for the fiscal year 1896, was Democratic in both branches, and the government was administered by Mr. Cleveland. It, therefore, affords fair ground for the purposes of comparison. The difference between the total then and now amounts to the starting sum of \$558,881,767, or more than as much again as it required to conduct the offairs of Abearu. ### HAS HE?

Governor William A. MacCorkle, the last Governor of West Virginia elected by the Democrats, has changed his views and hopes never to see another Democratic administration. The present prosperity of West Virginia is the reason he

gives for leaving the party.
"Republican power," he said, "has brought this State the greatest era of Democrats are always turning things upside down and creating a lack of confidence. The recent Republican administration has brought confi lence and prosperity."-Public Ledger, July 2nd.

In the above Elitor Davis simply revamps a story that was pronounced a rank fake three days before it appeared in the Public Ledger. Here is what Mr. MacCorkle himself says about it:

CHARLESTON, W. VA, June 30, 1902. To the Editor of the Enquirer .- Upon my return here my attention was called to a statement in your Saturday's issue purporting to be an interview with me in Parkersburg to the effect that I had changed my politics and am now a Republican. I have denied this publication by wire and letter throughout the country. Your paper is very extensively read in West Virginia, and you will do me a great favor by denying the statement in as strong and unequivocal language as can be used. I have always been a Democrat, am still a Democrat and expect to remain one. I have always voted my party ticket and expect to continue to do so. I never, in public or private, made a statement inconsistent with my position as a Democrat. I deny the purported interview, and feel more chagrined that Democratic newspapers would give it countenance without investigating the the Republicans would be able to nomi-W. A. MACCORKLE.

It remains to be seen whether the editor of the Ledger will give as much prominence to Mr. MacCorkle's denial as he did to the fake.

## COTTON Stuffs Must Go!

Of course there is plenty of wearing time ahead, summer has just begun, but stores must be four-handed. We're buying autumn stocks now, so good-bye cotton fabrics. We have some exquisite Silk Tissues in solid colors, printed effects, corded, satin and open work stripes. A few are in remnant lengths, enough for a waist or child's frock, but many pieces are full dress patterns. You will appreciate this beautiful material more when it is introduced at the regular price, 50c. a yard. Silk Tissue at 25c. suggests a shoddy imitation. A 50c. fabric of unimpeachable quality and beauty for 25c. Isn't that clear? Still a few of the Mousselines de soies, reduced from 60c. to 25c. Perhaps some friend availed of this tempting bargain when it was offered recently. If you have seen the goods "made up" further words of commendation are superfluous.

# GOOD RULE to Follow

In estimating the amount of paint needed for any given surface is to divide the number of square feet by 200. The result will be the number of liquid gallons needed for two coats. If an artistic job is wanted, go over any spots, particulary if they are greasy, with a saltpeter wash before the color is put on; they will then take the paint. It is worth a good deal to be certain you have used the best material possible. You can be sure of this if you use the United States Paint Company's goods. We have it in all shades, ready for use. There is nothing better made.
